

Discover smart new uses for fax

faxREACH combines the best of fax technology with practical applications for superior results.

Accessing the faxREACH system is easy and convenient via our user friendly Web Interface or a fax machine. Create and maintain your lists on our system or upload them just prior to delivery.

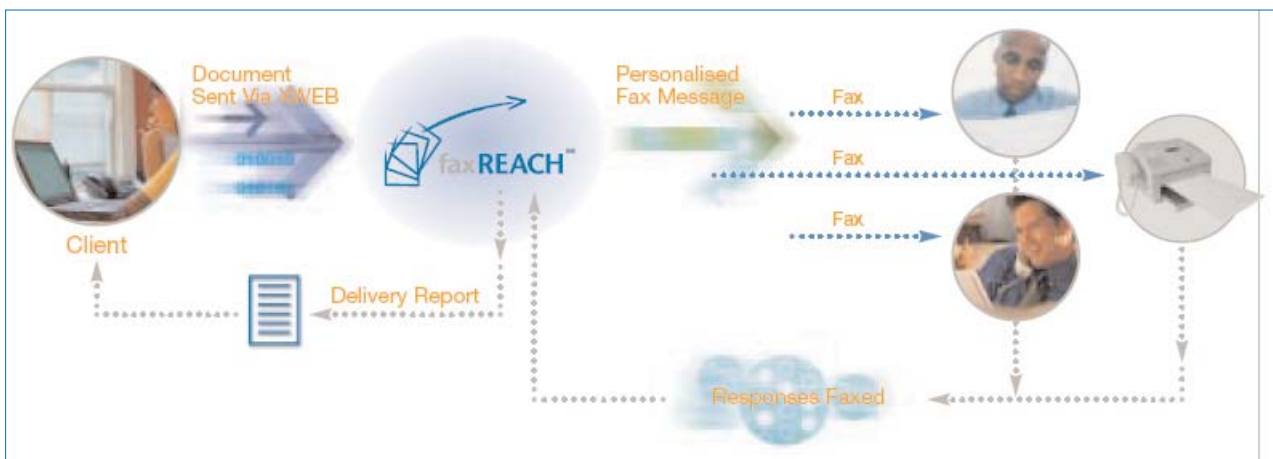

We will instantly improve the flow of your communications with better response rates, faster turnaround times and the elimination of costs for printing, mailing and administration.

Features:

- ⇒ Personalize your communications
- ⇒ Easily add graphics, logos and disclaimers
- ⇒ Multiple file formats accepted
- ⇒ Delivery time scheduling
- ⇒ Automatic retries of busy numbers
- ⇒ 24-hour data collection
- ⇒ Detailed delivery reports
- ⇒ Real-time tracking online

Use faxREACH to:

- ⇒ Maximise the impact of your communications
- ⇒ Remove burden on internal systems
- ⇒ Improve staff productivity
- ⇒ Increase response rates
- ⇒ Speed up turnaround times
- ⇒ Shorten business cycles
- ⇒ Provide instant access to information
- ⇒ Track document interest

Send us your document once, and we will distribute it to thousands of fax addresses simultaneously. We can even automate the delivery of computer-generated files containing variable information, such as customer statements, confirmations or invoices, to the fax addresses of individual recipients.

Discover smart new uses for fax

faxREACH Business Solutions

We offer fax solutions across all industries, with valuable core features, including convenient billing code options; flexible document input methods; delivery time scheduling; around the clock technical support; and a full audit trail for every message sent over our system.

Fax MailMERGE

We have combined the ease and user control of PC-based messaging with the efficiency of high-volume fax delivery. Working in conjunction with Microsoft® Word's Mail Merge tool, Fax MailMERGE enables you to quickly deliver personalized documents, with variable inserts and graphics, to thousands of fax addresses simultaneously. Launch your high-volume broadcasts conveniently via our Web Interface.

Fax Response

Achieve greater response rates to surveys, subscription renewals and questionnaires with automated, 24-hour data collection via a never-busy fax number. We will collect all the response data and send it to you in the format you prefer. Fax Response works seamlessly with our outbound broadcast fax service to provide a total solution.

Desktop Fax

Easily launch faxes directly from your PC using your familiar email client. We provide seamless integration with your email system, with no extra hardware or software required. We will supply you with a number to receive faxes in your email inbox that you can save, forward or print. To deliver a fax, simply send a standard email with attachments, and we will convert your files for delivery to any number of fax addresses.

Transaction-Based Fax Messaging

Our transactional specialists provide the technical support needed to automate business messaging systems. We establish a seamless interface with client systems for reliable delivery of computer-generated documents, such as customer statements, invoices and confirmations. Company logos, disclaimers and forms can be stored on our system for overlay prior to transmission, keeping our interface invisible to recipients.

About GNI

The GNI team draws from years of experience in the field of telecommunications & messaging. Our expertise is in understanding the needs of legacy & secure messaging with contemporary solutions.

As markets and technology continue to evolve, GNI is able to assist both the SME & large corporate clients overcome these

challenges.

Outsourcing has helped many companies avoid wasted investments in technology and solutions that either continue to require investment or are too costly to manage and operate.

In addition to our outsourced solutions we offer basic messaging services such as Telex & Fax at competitive rates.
